## *Welcome*

*Welcome to the Ocea Restaurant - Ocea is derived from the word Ocean; Remaining true to its identity Ocea offers finest Indian, Tandoor, Kerala, Mangalore, Arabian and Chinese cuisines with speciality in Sea food dishes. This menu contains a tempting array of seafood, inspired by flavour and simplicity.*

## *Why Sea Foods from Ocea?*

*All our sea food dishes are prepared from the fresh and finest sea foods supplied by our sister concern Ocea Sea Foods, who is a leading Sea food distributor in Bangalore since 1966.*

*– “We know about seafoods better than anyone.”*

## *Sea Food and Health*

*Globally, governments are increasingly focused on nutrition and health. Many countries are battling lifestyle diseases, and this trend is rising. The World Health Organization (WHO) has highlighted the importance of nutrition as one means to combat such problems, and several scientific studies have drawn our attention to the potential health benefits from eating seafood regularly.*

*Not all fats are to be feared. Scientific research consistently suggests that Omega-3 fatty acids found in some fish and seafood - including salmon, mackerel, and tuna - provide tremendous health benefits, from reducing the risk of cardiovascular disease and dementia, to boosting mood and brain development in young children.*

*Also known as Essential Fatty Acids, Omega -3s play a vital role in cell development and growth. Since our bodies cannot make these essential fatty acids, we must get them from our diet. That can be a delicious challenge. At Ocea Restaurant, we can help you meet it. Just look for fish such as Salmon, Tuna or Mackerel on our Today's Fish menu.*
